

Bristolite's Industrial Skylights

10 PSF Smoke Vent Model SH10

The Fiberglass Smoke Vent is designed to open against 10 pounds per square foot. The SH10 complies with Fire codes and comes with a standard manual release allowing Firemen to evacuate smoke manually at their discretion.

Typical Curb Mount and Self-Flashing Details

Specifications: 10 PSF Smoke Vent shall be No.H_____ as manufactured by Bristolite Skylights, Santa Ana, Calif. The double doors shall be framed with galvanized steel and shall be glazed with CC-1 Rated fiberglass domes. The curb and cross-stiffeners shall also be made of galvanized steel. Corners shall be welded to insure weathertightness. The double doors are activated by a single UL listed and FM approved fusible link. They can also be opened by the manual exterior handle. The door will open against a 10-PSF uniform load and is equipped with heavy-duty shock absorbers to control the speed of operation. In the closed position the units will withstand a minimum 40 psf uniform static positive and negative load. The unit meets the requirements of UBC Standard 15-7.

Standard Features Include:

1. **Meets UBC 15-7-** The Fiberglass Smoke Vent will open against 10 psf live load.
2. **CC-1 Burn Rate -** The Fiberglass Smoke Vent Domes have a superior CC-1 burn rate classification.
3. **Cost Effective -** The Fiberglass Smoke Vent meets National Codes at an affordable price.
4. **Standard Manual Release -** The Fiberglass Smoke Vent complies with fire Codes and allows Firemen to evacuate smoke manually at their discretion.
5. **Curb-Mounted** (specify by adding [CM](#) to model description) or **Self-Flashing** (specify by adding [SF](#) to model description.)

These models are also available with a louvered base
